If you are posted to an EU/EEA country, Switzerland or a social security agreement country on a temporary basis, you can be covered by Finnish social security legislation for a fixed period of time. As a posted grant recipient, you need to apply for a certificate from the Finnish Centre for Pensions to attest that you are covered by Finnish social security. Use this form to apply for the certificate.

APPLICATION (section 1)

Grant recipient to an EU/EEA country or Switzerland

If you are a grant recipient working on a grant issued in Finland and you are posted to work in another EU/EEA country or Switzerland for a fixed period of time (max. 2 years), you can apply to be covered by Finnish social security for the period of posting.

Grant recipient to India, the Republic of Korea (South Korea) or China

If you are a recipient working on a grant issued from Finland in India, South Korea or China for a fixed period of time (max 5 years), you can apply to be covered by Finnish social security for the period of posting.

Grant recipient to the United States of America

If you are a grant recipient and you live in Finland and work temporarily (for max. 1 year) on a grant in the United States of America, you can apply to be covered by Finnish social security for the period of posting.

Grant recipient to Australia, Chile, Israel or Quebec

As a rule, if you are a grant recipient working on the grant in Australia, Canada, Chile, Israel, or the province of Quebec, you are covered by the social security of the country in which you work. However, if you are going to Chile, Israel or Quebec, you can apply for an exemption and be covered by Finnish social security. The exemption requires that your country of work agrees to the arrangement. The Finnish Centre for Pensions will request the permission from the authorities in your country of work.

Grant recipient in several countries

As a rule, if you are working on a grant in two or more EU/EEA countries, you are covered by the social security of the country in which you live, providing that you work also in the country in which you live.

Exemption for EU/EEA countries and Switzerland

If your posting abroad as a grant recipient lasts for more than two years, you can get the certificate and be covered by Finnish social security on an exemption. As a rule, the exemption is granted for no more than 5 years. The exemption requires the consent of the country of work, which the Finnish Centre for Pensions requests from the authorities in your country of work.

WORK FOR WHICH THE GRANT WAS ISSUED (section 4)

In which country/countries will you be working during the period stated in your application?

If the nature of the work you do on a grant includes working in two or several countries, one of which is Finland, state Finland as one of the countries.

Duration of work abroad

You have to state the date on which your work abroad is estimated to end.

Foreign party or address, at which you will work

State your home address abroad if there is no other party or address at which you work abroad.

In which country do you live permanently?

The country of residence (= the country in which you live) is the country in which you usually and permanently live and to which you have close ties (for example, family or permanent appartment).

INQUIRIES
