

You can apply for a years-of-service pension from an earnings-related pension provider only.

Go to your pension provider's website or www.tyoelake.fi to read the criteria for getting a years-of-service pension. Read the instruction "Information for pension applicants" (ETK/Kela 7007oe). The instructions include information on how to apply for a pension and on how your personal data is handled in connection with issuing a pension decision.

Submit your application to your own pension provider. Please complete the form carefully and make sure that you have attached all necessary documents to your application. See section 12 Attachments.

You can get a national pension from the Social Insurance Institution of Finland (Kela) if your other pensions or compensations amount to less than the income limit of the national pension. Contact Kela to find out your right to a national pension.

In addition to a years-of-service pension, you can use this form to apply for a disability pension from an EU or EEA country, Switzerland or a country with which Finland has a social security agreement

13. Consent

Consent to release my information to parties involved in planning and implementing my rehabilitation

Your earnings-related pension provider establishes your right to vocational rehabilitation if you do not qualify for the years-of-service pension. If you have a right to vocational rehabilitation based on the earnings-related pension acts, your pension provider will issue a preliminary decision on the rehabilitation.

For a smooth procession of your rehabilitation case, it is often necessary for parties involved in the planning and implementation of the rehabilitation to retrieve and release information between themselves.

Under law, an earnings-related pension provider has the right to acquire the necessary information for the handling of your case from, among others, Kela, your employer, your physician and other health care professionals, the health care unit, the institution providing your rehabilitation or the social service provider.

If surrendering your information relating to your rehabilitation case is not based on law, your information can be surrendered only with your consent. Giving consent is voluntary.

You can withdraw your consent by notifying (in writing) the pension provider handling your case.

I consent to my earnings-related pension provider releasing data on rehabilitation decisions that concern me and other data relating to the handling of my rehabilitation case.

This consent concerns the following parties, if they participate in the planning or implementation of my rehabilitation:

- occupational health care at my workplace
- physician participating in my healthcare or treatment or other health care personnel, hospital or health centre,
- rehabilitation facility or service producer,
- my employer, but to whom no data on my health is to be released,
- employer offering the work try-out or work training, but to whom no data on my health is to be released,
- Kela,
- TE-services, or
- educational institution or apprenticeship office.

I do not consent to the surrendering of such data that the earnings-related pension provider does not have to right to release based on law.
